(SERVICE LIST ATTACHED)

BY THE BOARD:

On August 16, 2002, United Telephone Company of New Jersey Inc. d/b/a Sprint (Petitioner or United), filed a petition to revise its tariff to introduce a new package to Integrated Services Digital Network (ISDN) Primary Rate Interface (PRI) service, to be known as "Premium Package." ISDN-PRI Service is used by businesses to connect their PBX Systems to the Sprint Network. According to United, the premium package will be offered to businesses at a discounted price. The feature package will include ISDN-PRI related features, which are being approved in another filing. These features are E911 Call Screening, Caller Identification, and National ISDN-2, a Non-Proprietary protocol. In a separate filing, United also proposes to offer these features on an individual basis. No party has objected to the filing.

The introduction of the proposed package will not affect the petitioner's ability to provide safe, adequate, proper service and adds additional flexibility at a discount price for the users of ISDN-PRI service. The Board therefore ORDERS that the United's filing be APPROVED as filed.
